We hope you will enjoy browsing through our latest catalogue and come to discover the delights of planting and tasting fresh healthy fruit from your own garden. The mystery of purchasing shop bought fruit will disappear as you will now know what sprays, chemicals and fertilisers have been applied to the food you eat.

To ensure a wide selection of trees, we order from a number of different suppliers. Therefore, the availability of stock listed in this catalogue is subject to delivery from our suppliers.

We will notify customers as their orders are filled and unless prior arrangements are made, we require all orders to be collected by the end of July. This will ensure that customers receive their trees in prime condition.

Whilst Chandlers Nursery will take every possible precaution to ensure that the trees we sell are true to name and label, we cannot be held responsible for errors outside our control. We will replace wrongly labelled trees where possible or substitute where necessary, providing proof of purchase is presented. We advise you to pre-order to ensure your selection is available. Please do not hesitate to contact us if you have any queries.

PLANTING AND CARE

The site of planting should be well prepared prior to planting. Dig a hole roughly double the size of the root ball and mix compost or manure with the existing soil. We recommend Chandlers Organic Compost for planting. Water in well with Seasol and firm the soil gently. Seasol stimulates root growth and minimises transplant shock. This is especially important as a lot of our fruit trees are ground grown and are dug up when dormant. Continue Seasol fortnightly until the beginning of spring. This will improve drought hardiness of your tree. For people in drier areas, it would be advisable to plant fruit trees with water storage crystals or Seasol Planting Gel.

Spring is the time to mulch around your fruit trees, ensuring to leave a gap around the trunk. This helps retain moisture in the soil and prevents competitive weeds from sprouting. Our dry summers can make it hard for fruit trees to establish and we suggest several deep soakings a week either using an automatic system, or by hand. Increase this to 3-4 times a week in very hot weather.

Pests and diseases can also hinder the establishment of your new fruit trees. We offer spray programs for the most common pests and diseases which are available in store or on our website.

APPLES - \$29.95

COX'S ORANGE PIPPIN

Excellent dessert apple. Well flavoured, crisp and juicy. Mid-season maturity.

CROFTON

Red, crisp and sweet. Excellent flavour. Ripens mid-season.

GALA

MULTI GRAFTED FRUIT TREES

APPLE \$46.95

Coxs Orange Pippin / Golden Delicious

Gala / Granny Smith

Granny Smith / Pink Lady

Red / Golden Delicious

APRICOT \$59.95

Moorpark / Trevatt

CHERRY \$59.95

Royal Rainer (sweet, white flesh) / Stella

NECTARINE/PEACH \$46.95

Goldmine / Anzac

PEAR \$46.95

20th Century / Williams

PLUM \$46.95

Coes Golden Drop / Greengage

Santa Rosa / Satsuma

CITRUS TREES

The following varieties are available in 250mm pots.

\$59.95 unless priced

CUMQUAT

GREEN CUMQUAT

Evergreen, medium shrub producing small round fruit that can be used for marmalade or liqueurs.

MYRTIFOLIA

Highly ornamental, upright growth habit. Yellow to orange fruit.

NAGAMI

Slow-growing variety with sweet, oval-shaped fruit.

VARIEGATED

Variegated foliage. Young fruit bears white stripes that turn orange when ripe.

GRAPEFRUIT

WHEENY

Best variety for cooler climates. Large fruit with very good flavour. Very juicy.

RUBY RED

A hardy grapefruit with red flesh. Slightly sweeter than the Wheeny. Needs a warm position in order to fully develop red flesh.

LEMONS

EUREKA

Grows to 3 metres producing good crops of large lemons. Mostly thornless.

LEMONADE

A lemonade tasting lemon. Fruit separates like a mandarin.

LISBON

Very similar to above but carries thorns.

MEYER

The most popular home garden variety. Smaller fruit with a pale orange tinge. Prolific bearing tree to 2.5 metres.

LIMES

TAHITIAN

Medium-sized fruit with a thin rind. Green to pale yellow at maturity. Grows approximately 2 metres tall.

KAFFIR

Aromatic, citrus flavoured leaves that are used in Asian cooking.

NATIVE LIMES \$69.95

Available in 20cm pots.

FINGER

Also known as "Lime Caviar". Effervescent, tangy flavour. Recently popularised as a gourmet garnish.

BLOOD RED CENTRE

A cross between a finger lime and an acid mandarin. Blood-red rind, flesh and juice.

RAINFOREST PEARL

Green fruit, tinged with crimson, with pink flesh.

MANDARINS

EMPEROR

Requires a warm, sheltered position for best results. Good flavoured fruit produced from May to July.

IMPERIAL

A tried and true variety with good flavoured fruit with thin skin, making it easy to peel.

JAPANESE SEEDLESS

A delicious, seedless variety that has loose skin and is easy to peel. The most cold hardy of all citrus. Perfect for cold climates as it has a low heat requirement for ripening of fruit.

ORANGES

WASHINGTON NAVEL

An excellent, seedless eating orange.

BLOOD

Sweet, juicy orange with red flesh. Needs a warm, protected position.

SEVILLE

Also known as the sour orange. Excellent for cooking and marmalade. With its larger, deep green, glossy leaves, this orange makes a great ornamental tree. Blooms are very fragrant.

VALENCIA

Sweet fruit, that is very good for eating and juicing.

TANGELOS

MINNEOLA

Grapefruit / Mandarin hybrid. Orange skin with a sharp, rich, citrus flavour. Peels like a mandarin and the centre is very juicy.

DOUBLE GRAFTED \$99.00

LEMON/LIME Eureka Lemon / Tahitian Lime.

LIME/LIME Tahitian / Kaffir

CITRUS Trees in 20cm pots

The following varieties are available in 20cm pots for \$44.95.

LEMON

Eureka

Meyer

LIME

Tahitian

Kaffir

DWARF CITRUS \$69.95

All of these citrus are grown on dwarf rootstock. In the Tasmanian climate they will only grow to approximately 2.5m. Only available in 20cm pots.

LEMON

Eureka

Meyer

LIME

Tahitian

Kaffir

OTHER EDIBLES

ASPARAGUS \$5.95

Mary Washington variety. Sold loose as crowns.

AVOCADO \$89.00

Hass and Bacon varieties. Both are well suited to our climate. 250mm pot.

BLACKBERRY \$14.95

Thornless, non-invasive variety.

BOYSENBERRY \$14.95

Cross between a raspberry and blackberry.

CURRENTS \$14.95

Black, red and white varieties.

GOOSEBERRY \$14.95

Captivator, thornless variety.

KIWI FRUIT \$22.95

Require both a male and a female plant for fruit.

LOGANBERRY \$14.95

Trailing, thornless bramble with dark red berries.

LOQUAT \$59.95

Bessell Brown. Best cool weather variety. 250mm pot.

MEDLAR \$44.95

Dutch variety. Small, astringent, pear-shaped fruit. Pleasantly acidic when fully ripe.

MULBERRY \$54.95

Black English variety. Vigorous tree with delicious black berries.

OLIVE

Manzanillo and Kalamarta

250mm pot size for \$59.95. 200mm pot size for \$39.95.

PERSIMMON \$89.00

FUYU

A non-astringent variety. Fruit can be eaten from the tree.

POMEGRANATE \$39.95

Mollar de Elche variety. A good cultivar for juicing or fresh fruit.

QUINCE \$29.95

CHAMPION

Large, golden-yellow pear shaped fruit.

SMYRNA

Large, pale-yellow, sweet flavour.

RHUBARB \$5.95

Giant Victoria variety. Excellent red-stemmed variety. Sold loose as crowns.

RASPBERRY

Raspberries are sold bagged like our fruit trees. Each bag contains a bundle of 10 large canes for \$21.95.

Summer fruiting varieties: Chilcotin and Chilliwack

Autumn fruiting varieties: Autumn Bliss and Heritage

STRAWBERRY \$10.95

Red Gauntlet, Chandler, and Tioga varieties. 10 plants per pot.

YOUNGBERRY \$14.95

Trailing bramble with sweet, juicy, black-purple berries.
